RE: Permit Area Vegetation Map. Andalex Resources Inc. Centennial Project Mine,
C/007/019-AM03A

SUMMARY:

The vegetation resource map currently in the MRP addresses only the vegetation in the Disturbed Area and three reference areas. The information is supported by a survey in Appendix M and is adequate to classify the vegetation in the disturbed area.

In the Mining and Reclamation Plan (page 3-1), the applicant made a commitment to create a permit area vegetation map. The map was to be created using aerial photography, with fieldwork conducted as a means of verification. A vegetation map meeting these requirements has been provided to the Division.

During the course of this review it was discovered that the last evaluation of the reference areas on record was in 1987.
